

## November 2004 Edition

### 2004 Officers:

President:	August Bruno	(303) 828-0910	Secretary:	Russ Larsen	(303) 828-2872
Vice Presidents:	Terry Edwards	(303) 499-6463	Treasurer:	Ken Jochim	(303) 444-3206
	Rich Anderson	(303) 652-2224	Newsletter Editor:	Boris Sergeev	(303) 530-2063
					BSergeev@excite.com

CLUB MEETING: *November 10, 2004 at 7pm*  
Boulder TEC Center  
6600 Arapahoe Ave.  
opposite Valmont power plant

**BRING A MODEL!!!**

### REMINDER

The last person to leave the flying field needs to ensure that the gate to the field is locked. The gate must be locked with the club's padlock locked through the city's lock in order to allow the city to have access to the field.

Any maintenance work at the field must be coordinated and approved by club officers and Boulder City staff. All maintenance work to be done at the field must first be coordinated with club vice president Rich Anderson (303) 652-2224. Rich will coordinate requested projects with club officers and Matt Claussen with the Boulder City Parks and Recreation Department, and if the project is approved dates will be established for the work to be done.

### FIELD PARKING

There are parking spaces at the field marked and designated as handicap parking. We've been notified that if City Park Rangers see vehicles parked in those stalls without a proper handicap tag displayed they will start issuing violation tickets. **The fine for this type of ticket is \$125.00.** All members need to be aware that, if you park in a handicap stall without a tag and a ranger comes by, it could become *an expensive day of flying.*

### BAS MEETING MINUTES

October 13, 2004

President Augie Bruno called the meeting to order at 7:05 pm. The meeting was held at the VoTech Center.

### Minutes

Reported in the newsletter. A motion to approve was made by Rich Anderson and seconded by Wendell Wickstrom. Motion carried.

### Treasurers Report

No report.

### Old Business

A Field workday was held on Saturday, September 18th. Most tasks were completed. The gravel seems to be holding up well.

### New Business

Rich Anderson was able to get the same meeting space at the Vo Tech., at a good rate.

Nomination of candidates for Club Officers will occur at the November meeting. Election of Club officers will be held at the December meeting.

### Fun Time

Glen Miller demonstrated and explained his methods for building floats out of foam. Glen explained his method for figuring the length required. He uses the prop, rudder hinge line, and CG to calculate the various measurements.

Glen explained his techniques for gluing, cutting, and covering foam floats.

Dean Chandler explained his methods for building floats. Dean's methods vary some from Glen's, but both get excellent results.

Phil Youngren displayed his SPAD plane made of coroplast material. Phil explained that he got the plans from a web site. He described various techniques of working with the building material. Phil mentioned that he had to use some alternate materials to make the plane strong enough.

Phil described the flying characteristics of the plane.  
The web site is as follows: [www.SPADtothebone.com](http://www.SPADtothebone.com).

Dean Ehn showed a new receiver that he has purchased, which does not have a crystal and is tuned by the transmitter. The receiver is from Polk Hobbies.

A motion to adjourn was made by Rich Anderson and seconded by Dean Chandler. Motion carried. The meeting was adjourned at 8:30 pm.

Respectfully submitted,  
Russell Larsen, Secretary

### **PICTURE OF THE MONTH**

Egil Wigert has plenty of cool pictures to show off. This time, he sent me photos of Mig-15 by Century Jet.

The plane is powered by Jetcat P-160, which provides plenty of thrust.

According to Egil, the plane flies great.

### **KEEP SMILIN'**

#### *Internet R/C Forums Humor*

It all begins by someone asking a simple question on an R/C forum. Let's, for example, take "How to change your glow plug?"

One helpful and knowledgeable person will respond with a clear and nice procedure on how to change the plug. Seven persons will post half answers like "unscrew it," etc. Fifteen will comment on the first one and share similar methods on how they would perform the plug change.

Six persons will point out the dangers of changing plugs and advice against it.

Thirteen people will point out spelling mistakes in the initial question. Twenty-four persons are there to flame the spell checkers. Thirty-five persons complain to the moderator saying that this discussion is inappropriate on this forum. Nine persons flaming the spell checker flammers for also making spelling mistakes.

## CLASSIFIEDS

Seventeen people claim this is a raptor forum and ask that the discussion to be continued on the glow plug forum. Fifty-six persons defend the discussion on the forum, because we all use glow plugs, and it is therefore relevant on the raptor forum. Seventy-six persons will debate where to buy the glow plugs, which brand is the best, and which are crap.

One person starts to quote the Bible's references to glow plugs. Eighty-nine persons tell him to respect the beliefs of others and take the religious crap to the preaching forum. Thirty-five people complain about the language being used in the anti-religious posts.

Eight people post URLs where glow plugs can be seen. Fifteen posting that the URL did not work and giving new URLs. Six posting links they found in the URLs which defend having the discussion on this forum.

Nineteen persons repost all the messages and URLs on the current topic, including all headers, signatures, and ads, and then add "I agree!" to the top of the post.

Twenty-seven people are threatening to leave the forum because they do not like how this thread is developing. Seven persons quote the "I agree!" post, adding "Me too!" Four people suggest to search the archive for glow plugs. Six people point out that the archive is not searchable and suggest to move the forum to another forum provider.

Fifty-four persons send E-mails off- forum to the people who agreed with them and patting each other on the back. Five people actually sign off the forum in frustration.

One guy changing his glow plug. ☺
