

# THE INVERTED FLYER

NEWS of the BOULDER AEROMODELING SOCIETY  
AMA Charter # 906

## August 2016 Edition

### BAS Picnic

About 40 members and guests attended the BAS Picnic on Saturday, July 16th.

The event started off with a silent auction of the late Augie Bruno's modeling equipment. The auction ended at 11:00 and thanks to a great turnout of people, all items were spoken for and the club treasury received a significant contribution.

Thank you to all the purchasers.

Shortly before noon the Famous Dave's BBQ catering truck showed up and soon everybody was enjoying a great lunch. Famous Dave's delivered chopped pork, brisket, wild beans and potato salad. Murray Lull brought watermelon and cantaloupe for dessert while David ensured that nobody went thirsty with an ample supply of cold soft drinks, fruit drinks and water.

Once again, thanks David for setting this up...

### How a radial engine works.

*"Wood hobbyist Ian Jimmerson took his love of all things mechanical and combined it with his woodworking passion to create a nine-cylinder radial engine out of lumber and plastic."*

While browsing the internet I found these youtube videos of a wooden radial engine. The gentleman who built it, Ian Jimmerson, lives in Brighton Co.

Ian built the unit to understand and explain how a radial works, but the craftsmanship and effort put into the model is also impressive.

The links below should be active, so clicking on them should take you to the youtube videos:

Enjoy - Al

**Nothing sucks more than that moment during an argument when you realize you're wrong.**

## Minutes of BAS Meeting

7/13/16, Club Field

President Murray Lull called the meeting to order at 6:30 pm.

There were 8 members present including one who joined the club at the meeting, and one guest who is currently a glider pilot and was investigating the club.

A motion to approve the minutes of the previous meeting was made by Al Coelho and seconded by Greg Hine. Minutes were approved by a show of hands.

Secretary Ken Jochim mentioned the recent FAA rulemaking on UAS/Drones, and that it continues to exempt hobby flying.

It was reported that we have 83 members with 22 in the Float Fly subgroup

Old Business:

Everyone was reminded that the club picnic will be Saturday, and that there would be a silent auction of Augie Bruno's modeling equipment, with proceeds to benefit the club.

The gravel work has been deferred for the time being.

The club was contacted by the CU police department, asking about how to regulate "drones" on campus. Murray referred the person to AMA AVP Rick McCaskell.

The retrieval process seems to be working according to the rules, with most of the retrievals being made by club members. It was noted that some of the city retrievers do not enter the information in the book.

There being no New Business, a motion to adjourn was made by Al Coelho and seconded by David Goodnow.. Motion Passed. Meeting adjourned at 6:59 pm.

Respectfully Submitted, Ken Jochim, Secretary

## Wounded Warrior Electric Fun Fly August 13, 2015

Longmont Electric Airplane Flyers (LEAF) Wounded Warrior Electric Fun Fly will be held on August 13th 2016 to celebrate National Model Aviation Day at their field in Longmont, CO.

The event is expected to draw RC flyers from all over Colorado, Nebraska, and Wyoming, flying electric airplanes, helicopters, FPV, and multi-copters in exciting competitions.

Besides being a lot of fun for all attending, LEAF's AMA Intro Pilots Instructors will be taking the general public up flying in one of the clubs trainers under buddy box flight control.

The event will included a raffle. A BBQ lunch will also be served to all.

LEAF will donate proceeds to the Wounded Warrior Project.

For more information visit the LEAF website at:  
<http://www.leafrc.com>

## This months Food-For-Thought

(from your Editor)

**Why is it, if you ask a group how something should be done, nobody will input.**

**But**

**If you do something, the same group will have endless comments on how it was done wrong and how it should have been done.**

## Filling space...

**Eli Boardman  
Caleb Chatham  
Wayne Guenther  
Madison Mims  
Doug Weibel**

**Mike Broadstreet  
Jim Gautreaux  
Bowdie Ormsbee  
Richard Pyle**

## THE INVERTED FLYER

Editor: Al Coelho

*The Inverted Flyer is published monthly by the Boulder Aeromodeling Society as a service to its members. Submissions for publication are encouraged and can be but are not limited to: articles pertaining to Aeromodeling, letters to the editor, short news items of general interest to BAS members, and announcements. Space permitting, all submissions will be published except as follows: no anonymous letters or any submission containing morally objectionable content or language, as judged by the editor. Classified ads will be provided to the members of BAS free of charge. The deadline for all submissions and classified ads will be the first of the month for publication on or about the first Wednesday of the month. Opinions expressed in the Inverted Flyer are not necessarily those of the Boulder Aeromodeling Society general membership.*
