Club DVD Library Proposal

At June club meeting, we've discussed an idea of starting a DVD library for the club members. At that time, we decided to make an e-mail survey to come up with a decision at July club meeting.

The idea is that the Club would buy DVDs to make them available to the club members. Someone can be a "librarian" (I or anyone else, who would like to do this) will keep track of the DVDs and provide information to all the club members about the location of each disk. We can even make a Web page with this info and keep it up to date. People would bring DVDs to the club meetings, exchange them, and make a "library" record.

The most difficult task is to decide which DVDs to buy. It looks like most of the titles available on the US market are videos from various national and, occasionally, international R/C events. There's probably a small number of educational titles as well as a couple of construction videos. What kind of DVDs is of most interest for the club members?

I've found and other club members suggested these places on the Internet, which sell R/C related DVDs (please send me your links, if you know others):

SKS Video Productions (go to Videos For Sale menu and select the subject):

www.sksvideo.com/cat/Video+Info.html

Tons of DVDs about Jets, Scale, Electrics, Helicopters, Float Fly, Aerobatics, crashes, British DVDs by Traplet, etc. Most of the titles in \$20...30 range.

Propwash Video Productions:

www.propwashvideo.com/cat/Current+Titles.html

Many titles about national R/C events.

Most of the titles in \$20...25 range.

Ultimate 3D series, guides for mastering 3D flying:

www.jpmediainc.net/ultimate3d.html

3D Flyer magazine reviewed these disks:

www.jpmediainc.net/review.html

Cost \$20...22.

Vacuum Bagging Made Easy (2 DVD set) \$55 and
Composite Molding Made Easy \$35:

home.paonline.com/hayman/video.htm

and here's a review of the first title:

www.rcgroups.com/links/index.php?id=4169

Radio/Carbon Art

Any 3 DVDs for \$64.95, any 5 DVDs--for \$99.95

radiocarbonart.com/Pages/products.html

14 Titles: Electric Revolution (I've already bought this awesome DVD and will loan it to the library), most of the others are about gliders and soaring.

Here's more info about these DVDs:

www.rcstore.com/rs/general/listproducts.asp?catego=DV&catid=61

Please voice your opinion if the club should start a DVD library and what titles you would like to see there!
