CLUB MEETING: September 14, 2005 at 7pm
at the flying field.

Last meeting at the field this year.

FIELD PARKING

There are parking spaces at the field marked and designated as handicap parking. We've been notified that if City Park Rangers see vehicles parked in those stalls without a proper handicap tag displayed they will start issuing violation tickets. **The fine for this type of ticket is \$125.00.** All members need to be aware that, if you park in a handicap stall without a tag and a ranger comes by, it could become *an expensive day of flying.*

BAS MEETING MINUTES

August 10, 2005

Meeting called to order by President Augi Bruno at 7:00 pm at Chandler field with 13 members present.

Glen Miller announced to the club members present of the death of our fellow club member Malvin Meador. Glen showed some pictures of Mal and some of the models he had flown. Mal was a scale modeler and had entered as the scale master's national contest a number of times. He was a Craftsman and a Gentleman and His presence will be missed.

Minutes

Motion by Dean Chandler second by Dean Ehn to accept the July minutes as posted in the last newsletter. Motion carried.

Treasurers Report

Treasurer Ken Jochim reported a club bank balance of \$8897.15 with 99 active members.

New Business

It was discussed and decided to schedule a workday for the field. The date will be Saturday, September 17, at 8:00 AM.

Bring mowers, rakes, sprayers, or whatever necessary to get the job done. Flying will follow the field cleanup.

The Osprey chicks have fledged, and field should be back to normal by September 10.

Ken Jochim announced that he will attend the Colorado Model Club Meeting and will report back to us. He also mentioned help was needed for the model soaring contest being held near DIA on August 19,20 and 21.

Next meeting will be at Chandler Field on Wednesday, the 14 of September, at 7:00PM.

Show & Tell

Tony Klwein showed a kit he is building. It is called the EVA BIPE a small electric, which has laser cut parts, which seem to be of high quality. We were impressed along with you Tony.

Rich Anderson showed a completed Taube Balsa USA. It is finished except for radio installation. A Saito 100 4-stroke upfront should make it go just fine. It is a nice job of building Rich!

Motion by Ken Jochim second by Dean Ehn to adjourn.
Motion carried.

Respectfully submitted,
Rudy Glick

US TEAM F3J TRIALS

As mentioned in the last newsletter, on August 19-21, Rocky Mountain Soaring Association hosted trials to select a national team for 2006 F3J World Championship, which will take place in Slovakia. Only 3 pilots are included in the team, so, the competition among several dozens of contestants, who came to the trials this year, was intense.

Among the contestants, there were several members of our club, including Skip Miller and Charlie Miller. Many club members volunteered at this event as official flight timers.

When the round starts, all the models are launched at the same time—an awesome sight!

Most of the gliders are hi tech molded ships imported from Eastern Europe

Result of a midair—the bang was heard from a mile away but the glider was still flyable

Despite a mishap at the end of the second day of flying, when Skip Miller almost lost his main ship (no, it's not his glider in the previous picture), he managed to get the 3rd place and made it to the US team again!

Yours truly,
Boris Sergeev

PICTURES OF THE MONTH

Wan Suwito sent these pictures, which were taken by his Nikon 3700 camera flying in electric glider Graupner Pink.

Club DVD Library Update

As approved at July meeting, we are starting the Club DVD library. It was decided to order several DVD-s equally divided between these three main areas:

- Building techniques
- Flying techniques
- Air shows

To start with, the following 6 DVD-s were just ordered:

- Dave Platt's Black Art Series
Advanced Building Techniques Volume 1
<http://www.propwashvideo.com/dbID/119.html>
- Composite Molding Made Easy with Terry Luckenbach
<http://home.paonline.com/hayman/PAGE3.htm>
- Ultimate 3-D with Chris Maier
<http://www.jpmediainc.net/ultimate3d.html>
- Secrets of Thermal Soaring by Radio Carbon Art
<http://radiocarbonart.com/Pages/products.html>
- Skymasters Float Fly 2004
<http://www.sksvideo.com/dbID/125.html>;
- Southeastern Electric Flight Festival 2005
<http://www.propwashvideo.com/dbID/137.html>;

I will also donate to the library my own *Electric Revolution* DVD by Carbon Art.

Also, I have downloaded from eZone Magazine free Scale Builder's Workshop Videos:

- Planking Compound Curves -- by Jim Young
<http://www.rcgroups.com/links/index.php?id=4829>
- Vacuum bagging a foam core wing
<http://www.rcgroups.com/links/index.php?id=4901>

As soon as the first DVD-s arrive, I will make a DVD Library page at the club Web site, which will allow any club member to sign for a particular video.

Yours truly,
Boris Sergeev

Note to members receiving newsletter by snail mail:

If you send the editor your email address, we can send you the newsletter by e-mail. This saves the club 37 cents each newsletter PLUS you get all the links clickable and all the pictures in color rather than black and white. And you get it a couple of days sooner.
