BAS MEETING MINUTES November 12th 2008

Meeting called to order by President Greg Hine at 7:05 PM with 15 members present. Motion by Greg with a second by Al Coelho to accept last months meeting minutes as they appeared in the last news letter. Motion was voted on and passed.

TREASURE REPORT-- Ken Jochim gave a detailed report on our bank balance.

1ST VICE PRESIDENT Augie Bruno reported we now have 109 members in the club.

OLD BUSINESS-- Joe Sherran reported the tree in the parking lot is now partially removed and will finish the job in the near future. A discussion was held on recovering the tables in the pit area. It was decided to wait until spring to put new carpet on the tables.

NEW BUSINESS-- Rich Anderson reported 3 more young people are wanting to enroll in the Mal Meador youth program. He stated he would like some help with the training of the students. Wendell Wickstrom agreed to help. Lee Sturgeon has a trainer he would like to donate to the program, But Rich said he would like to try it out first to see if it would be suitable for the program. Greg Hine stated Hobby Town USA at all three locations is having a sale for AMA members. Sale prices are good until the first of the year. Negotiations with the city for the field improvements were reported by Greg as going well and most likely will be approved. Ken Jochim reported he received a letter from the Wings Over The Rockies Museum wanting to know if our Club is going to participate in model show February 21. If we go, Al Coelho mentioned the Longmont club may want to join us. Action on this will be taken at a later meeting. Greg asked for nominations for the election of officers for 2009. Present officers agreed to run again for 2009. Any member can make nominations from the floor on election night which will be at our December 10 meeting. Motion to adjourn by Ken Miller with a second by Rich Anderson. Motion voted and passed.

SHOW AND TELL-- Tony Kilwein displayed a transmitter glove for cold weather flying. He stated it works real well. Also Tony showed a airborne monitor that will down link in real time things like air speed, amps, volts and more while your craft is in the air. Bois Sergeev showed us a technique for laminating a carbon fiber landing gear. He made a good looking gear and said it is quite easy to do.

Respectfully submitted Rudy Glick.

I love the smell of glow fuel in the morning, and the smell of epoxy in the evening.

The "**peanut gallery**" has been used for some time to imply "the cheap seats." Today, balcony and mezzanine seats often go for more than main floor seats at the rear of the auditorium, because of their superior view. However, before microphones and opera glasses were common, balcony seats were the worst in the theater. The audiences in the cheap seats, typically lower class than the orchestra section, were the rowdiest in the theater, and in late 19th century vaudeville, disapproving audiences did more than just heckle the performers. In addition to the clearest view of the stage, patrons in the upper levels also had the clearest shot, and a bad performer would often find himself showered from the upper deck with the most common theater snack of the time, **peanuts** sold by the concessionaires. Players soon learned to play to the **peanut gallery** at the top of the theater, lest they learn firsthand where the name came from. Later on, the name was popularized by Buffalo Bob Smith, who chose to call his Howdy Doody audience the **Peanut Gallery**, presumably to emphasize the audience's cuteness, rather than their propensity to throw stuff at him.

Field Parking

There are parking spaces at the field marked and designated as handicap parking. We've been notified that if City Park Rangers see vehicles parked in those stalls without a proper handicap tag displayed they will start issuing violation tickets. The fine for this type of ticket is \$125.00. All members need to be aware that, if you park in a handicap stall without a tag and a ranger comes by, it could become an expensive day of flying.
