**CLUB MEETING:** *April 12, 2006* at 7pm at VoTech (across Arapahoe from the power plant)

### **FROM THE EDITOR**

In case you hadn't noticed, this issue of the Inverted Flyer is a bit late. This newsletter will cover what should have seen light prior to our March 8<sup>th</sup> meeting, and we will resume with our regularly scheduled programming near the beginning of April.

### **BAS MEETING MINUTES**

Boulder VoTech Center  
February 8, 2006

Meeting called to order by President Rich Anderson at 7:00 PM with 15 members present and two guests, Donna and Rick Gerren.

#### **Minutes**

Motion by Boris Sergeev, with a second by Augie Bruno, to accept the minutes of the January meeting as they were published in the February newsletter. Motion passed.

#### **Treasurer's Report**

Treasurer Ken Jochim reported a bank balance \$9259.38

#### **Old Business**

The new contract with the city has been signed by Rich Anderson and sent to the city for their signature.

Our meetings will continue to be held at our present site through the month of May.

Tony Kilwein reported on safety fence prices. A discussion was held on what type of fence to use to repair our existing fence. Wendel Wickstrom made a motion to replace the fence with the current material, which was seconded by Rudy Glick. Motion voted and passed. A motion by Dean Chandler, with a second by Tony Kilwein, to replace the present fence with chain link. Motion voted and did not

pass. More discussion was held, and Tony Kilwein is going to check with AMA on the safest application before any action will be taken.

Discussion was held on an upcoming float fly. Motion by Dean Ehn with a second by Augie Bruno to not sponsor an open float fly in the near future. Motion voted and passed.

Wendell Wickstrom informed us that Glen Miller is making good progress on his recovery.

#### **New Business**

Rich Anderson has received a notice from the city park service that we need to stop with the foot traffic on the northwest quadrant of our field. Rich will talk with Matt of the city park service about a possible solution to the problem.

Augie Bruno reported that he attended the indoor fly-in at Greeley airport. He said you had to stay alert, but all had a good time.

Some of our members attended the Jeffco club RC auction. It was reported to be a success.

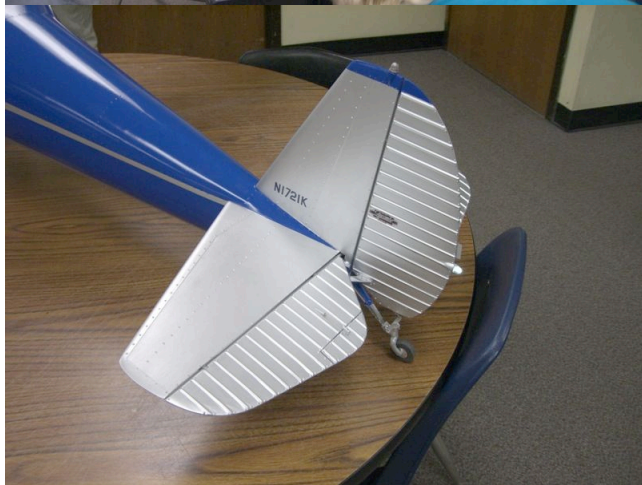

#### **Show and Tell**

Ken Jochim displayed a foam electric model called the tribute. It has 22oz of thrust and it weighs 12 oz. It should have no trouble going vertical.

Steve Croft displayed a scratch designed and built model of a 1946 Luscombe. This model has to be seen to be believed. It has a 2cylinder glow engine, covered with 1/64 plywood. He said it has been in the works on and off for the past 6 years. Steve's fine craftsmanship shows up in all the fine details of this model.

Respectfully submitted,  
Rudy Glick
