Wings Over The Rockies Exhibition

The club is looking for volunteers for a booth at the Wings Over the Rockies R/C exhibition on February 10th 2007, from 10AM to 5PM. We will be provided with a table and chairs, and are asked to bring some of our models for display, and possibly set up some technique or product demos.

The organizers are hoping to make this a Toledo type event, with vendor booths for the big manufacturers (DuBro, Dave Brown, etc.) and lots of cool hardware. Plus, it should be a great opportunity to chat with fellow modelers from around the area.

If that wasn't incentive enough, the museum offers free admission to anyone participating, and their exhibits include lots of cool planes including one of only two B-1A bombers on display in the nation. They also make it open cockpit day, so you get the opportunity to drop into the pilot's seat of those planes as well.

If you're interested in participating, contact one of the club officers, or Bob Bergin at (303-693-9727) or bobbergin2@comcast.net.

FIELD PARKING

There are parking spaces at the field marked and designated as handicap parking. We've been notified that if City Park Rangers see vehicles parked in those stalls without a proper handicap tag displayed they will start issuing violation tickets. **The fine for this type of ticket is \$125.00.** All members need to be aware that, if you park in a handicap stall without a tag and a ranger comes by, it could become *an expensive day of flying*.

CLUB DVD LIBRARY OPEN

The Club DVD library is open:
milehighwings.com/club/dvd.htm
You can request a title via e-mail and pick up the DVD at the club meeting. Don't miss *Tucson Aerobatic Shootout*, the best R/C video of all times!

Please feel free to [e-mail](mailto:) me your suggestions regarding the new DVDs to add to the library.

Boris Sergeev, Club Librarian

Flying Field Hours Clarification

The question of the flying field hours was recently brought up, partly because the old hours were established when we were in much closer proximity to our neighbors and electric powered models were almost unheard of. Although it seems logical that one could fly a quiet model outside of established flying hours without disturbing anyone, club members are advised not to do so. Our agreement with the city explicitly states our flying times, and we have been unsuccessful in re-negotiating these times in the past, so it's in the best interest of the club members to stick to the current hours.
