Cluster bombing from B-52s is very, very accurate. The bombs are guaranteed to always hit the ground.

## Notice

**George Eisenberg**, a long time member of BAS, passed away on October 7<sup>th</sup> and we give our condolences to his wife Bonnie. On October 27<sup>th</sup> three of our club members went over to visit with Bonnie and at her request helped clear out some of George's airplane "stuff". Some of the items were just throw away, some are to be given away and some she would like to see if we could auction or sell. The items to be given away will be brought to the November club meeting so if you would like to have an opportunity to look over and pick up some free "stuff" be sure to show up. Also the items that we would like to auction or sell for Bonnie are collector type airplane kits from Guillow, Sterling, Comet, SIG, Tern Aero and Easy Build. In order to help Bonnie get a few dollars from these kits (some are still new in the wrapper) we would ask that they start with a minimum of \$5.00 each; so bring a few bucks, run up the bid a few dollars and take one or two back home with you. Come on out and let's have a great meeting.
